Tennessee Cancer Consortium

ABOUT US

The Consortium is a statewide nonprofit organization. After having been a volunteer group since 2003, the organization voted to become a nonprofit and was awarded 501c3 status in December 2015. The statewide organization has grown to nearly 300 members.

The Mission of the Consortium is to reduce the impact of ALL cancers on ALL Tennesseans. As a 501c3, the Consortium is funded by grants, donations, and fundraising events. By partnering with organizations, such as state and local Department of Health offices, public and private universities and colleges, hospitals, and other local and national nonprofit organizations, the Consortium implements various programs and activities that are guided by the Centers for Disease Control and Prevention's Comprehensive Cancer Control Program.
