Description and Objectives:

The Tennessee Cancer Consortium's Annual Cancer Conference will be held on July 20, 2017 at the Millennium Maxwell House Hotel and Conference Center in Nashville. The Cancer Conference objectives are to bring together over 300 volunteers of the state's cancer community to discuss issues, share ideas and focus on transforming the latest knowledge into strategies that communities, institutions, businesses and individuals can employ to the reduce cancer burden in our state.

The 2017 Cancer Conference theme is: ***Working Together to Make a Difference.***

The morning portion of the Conference will concentrate on the Prevent Cancer Foundation's ***Think About the Link***[®] campaign, a multi-year prevention and education campaign advancing awareness of the connection between cancer and viruses. The campaign is focused on three viruses linked to cancer, including human papillomavirus (HPV), hepatitis B and hepatitis C. This will be followed by an afternoon of breakout sessions with topics ranging from women's health, tobacco, advocacy/affordable health care and palliative care/cancer support services.

**Registration is \$15 before June 4, \$20 afterwards.
Students are \$5 and Survivors are FREE (but you must register).**

To register, please to go the following link - www.PreventCancer.org/Nashville2017
